

STRATEGIC PLAN 2024-2027

Reimagining Philanthropy for Just and Equitable Communities

Social Venture Partner Seattle's **mission** is to reimagine philanthropy by centering Black, Brown, Indigenous, and other Communities of Color to create a just and equitable King County

We are a cross-race, cross-class, cross-cultural community that gives, volunteers, learns, and acts together to create a just and equitable King County.

Our **values** are justice, racial equity, shared accountability, accessibility, and community

About the plan SVP's strategic plan is a three-year roadmap that guides our commitment to racial equity and justice while ensuring sustainable growth and centering community-led solutions.

Strategic Focus Areas **Develop, Cultivate, and Deepen Authentic Community Relationships:** SVP will build deep, regenerative partnerships with community organizations to ensure that our programs reflect community needs. This includes expanding our network of nonprofit partners and strengthening community engagement.

Transform Philanthropy by Centering Black, Brown, Indigenous, and Other Communities of Color: SVP will deepen partnerships with nonprofits through collective learning programs, participatory grantmaking cohorts, and a reimagined volunteer program.

Grow an Inclusive Community of Justice-Focused Philanthropists: SVP will recruit individuals committed to justice-centered philanthropy and expand hands-on training, networking opportunities, and intersectional learning sessions.

Create Sustainability Across Finances, Staffing, and Programs: SVP will launch and complete our Reimagine Campaign to increase revenue, enabling investments in resources that ensure our long-term success.

Our impact Building on our history of engaging 2,500 people, partnering with over 300 nonprofits, and investing 18 million in community-led organizations, we aim to double our Partners, grow our grantees by 200%, and increase our volunteer support by 400% in the next three years.
